

Career Objectives

Technically Skilled React Developer With 2+ Year Experience in Developing Web Based Applications using React and its Reusable Component with Responsive Architecture. Having good Command over Redux for state management in React and proficient in designing and developing UI Interfaces with Semantic coding using HTML, CSS, JavaScript, Bootstrap, MUI and testing trouble shooting problems with Jest and Enzyme to boost the overall performance of the application.

Technical Competencies

Programming Languages: HTML5 & CSS3, JavaScript, TypeScript, jwt

Frameworks and Libraries: React.js, Redux, Bootstrap, material UI, Node JS, Express, MongoDB

Front-end Technologies: ES6, JSX, RESTful APIs, MUI, Bootstrap, Tailwind-CSS

Version Control: Git, GitHub

Testing: Jest, Enzyme

Tools: NPM, Visual Studio, Postman

Design and Prototyping: Adobe Photoshop, Figma, Invision-Tools

OS: Windows

Strong understanding of responsive web design principles

Solid problem-solving and debugging skills

Excellent communication and teamwork abilities

Education Details

Qualification /Degree	Discipline	Education Institution	University	Year of Completion
High School	Science	Soghra High School	Bihar School Examination Board	2011
12 th Grade	Mathematics	Soghra High School	Bihar School Examination Board	2013
B.tech	Chemical Engineering	Haldia Institute of Technology	Maulana Abul kalam Azad University of Technology	2018

Experience

Project Name	Geek Cloud Package
Organization	Mphasis
Duration	20-May-2023 – On going
Environment	JavaScript, React JS, Rest API, Material UI, Formik, Typescript, CSS3

Description:

- A Web Application which provides visual representation of the data, using to ensure the health of Engine and Turbine of a ship by fetching the data from API and integrating that with various graphs and charts and so many functionalities.

Responsibilities:

- Developed interactive web applications using **React.js** and other front-end technologies.
- Integrated **Restful APIs** to fetch and update the data in real time, enhancing the user experience.
- Collaborated with designers and backend developers to implement user interfaces and ensure seamless integration.
- Did Cosmetic changes as per client requirements and creating components as per functionality need.
- Translated design **wireframes** and mockups into responsive and functional web pages.
- Utilized **Git** for version control and collaborated effectively with the development team using **GitHub**.
- Participated in code reviews, providing feedback and suggestions for improvement.

Project Name	Investment project
Organization	Mphasis
Duration	20-May-2022 to 21-Mar-2023
Environment	HTML5 & CSS3, JavaScript, React JS

Description:

- Designed and developed the dashboard of employee management app with the **React JS**, **Redux JS**, **MUI**.

Responsibilities:

- Developed and maintained responsive web applications using **React JS**, **HTML**, **CSS** and **JavaScript**.
- Utilized **Redux** for state management, ensuring a smooth and effective flow of data throughout the application.
- **Worked closely with senior developers** to implement UI components and features.
- Collaborated with the design team to create **responsive** and visually appealing web pages.
- Conducted cross-browser testing and fixed compatibility issues.
- Gained experience in using **Git** for version control and participated in code review sessions.

Project Name	L and R transformation
Organization	Mphasis
Duration	20-Jan-2022 to 20-Mar-2022

Environment	HTML5 & CSS3, JavaScript, React JS, Bootstrap, Git and Github
--------------------	---

Description:

- Build several mini projects using these above stacks separately as well as combined.
- Got **certification** on above tech-stacks **Mphais pvt ltd** internal platform.
- In training worked on several projects with different tech stacks like HTML, CSS, Bootstrap, JavaScript, React and Redux.

Responsibilities:

- I was assigned as UI developer and the main part in this role is designing. I have learned how to use **Invision tools** for the rough diagram and to take the feedback from clients.
- Managed the **global state** by using **context API** and **Redux**, which is very useful, when it comes to manage a complex application.
- Created a dashboard based on **Redux, React, SASS** for the beautification of the application
- Participated in sprint planning, daily stand-ups, and retrospective meetings to ensure effective collaboration and project progress tracking.

Project Name	Training and Internship
Organization	Newton school
Duration	11-May-2021 to 20-Dec-2021
Environment	HTML5 & CSS3, JavaScript, React Js

Description:

- I have created some good projects at newton's school like as major project **Facebook app clone** which is a complete **full stack** development and some minor projects like my **portfolio**, **Todo-list**, **ecommerce web app** etc.
- **Learned java programming** language and participated in national level coding challenge test.
- **Project Name: E-commerce Website** (Hosted Link: [Click](#) ,GitHub-Link: [Link](#))
- Description: Developed a responsive e-commerce website using React.js, Redux, and Bootstrap.
- Implemented product listing, filtering, and cart functionality.
- **Project Name: Facebook App clone** (Hosted Link: [Click](#) , GitHub Link: [Link](#))
- Description: Built a Facebook application using **React JS, Node JS, Express JS, MongoDB**.
- Implemented user Registration, Login, and posting features and all CRUD operations.
- Utilized local storage for data persistence.

- **Project Name: *Portfolio Website*** (Hosted Link: [Click](#) , GitHub Link: [Link](#))
 - Description: Created a personal portfolio website using **React.js**, showcasing my skills, projects, and contact information.
 - Implemented smooth scrolling, responsive design, and interactive animations.
-
- **Project Name: *Game Website*** (Hosted Link: [Click me](#) , GitHub Link: [Link](#))
 - Description: Created a Game website using **JavaScript** and **CSS** only.
 - Implemented Logic and **problem-solving** skills.

Personal Details

Date of Birth : 05-Aug-1996

Sex : Male

Email : alams3510@gmail.com
